DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Matthew Wade on 2/3/05.

Cancel claims 18-19.

REASONS FOR ALLOWANCE

Claims 1-17, 20 and 25-28 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art of record fail to disclose the combination of all the limitations recited, including the applying a second layer of resist and patterning the second layer of resist using imprint lithography to form a second pattern aligned along a second direction; applying a second ion-masking material over the second pattern, and selectively lifting off the second ion-masking material to leave a second ion mask defined by the second pattern (claim 1) and imprinting a second pattern on the second layer of resist to expose second areas of the first oxide layer aligned along a second direction different from the first direction; covering the patterned second layer of resist and the exposed second areas of the first oxide layer with a gate electrode material; and selectively removing

gate electrode material to leave a gate electrode defined by the second pattern on the first oxide layer (claim 25).

Therefore, the method for fabricating a nanoscopic transistor is neither anticipated nor rendered obvious over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
